

Art Exposé

Art and Artist Information

About the Art:

Name of piece: *home SWEET home*

Medium used: Sugar cookie, royal icing and edible marker

When it was completed: October 4, 2020

How does this capture the essence of our collective home: South Rosebank?

Not only is it a playful rendering of our community map, but also highlights some of the key symbols of SORO. Central to this piece is the new addition of the SORO Social Butterfly that was installed at the tennis courts of Rick Hull Park. I chose to make this a 3D feature, as the installment in 2019 is when I was first introduced to the SORO Good Neighbours community.

About the Artist:

Full name: Melody Jizmejian

Pre-teen Teen Adult

How did you develop your artistic talents?

Having been exposed to baking by my mom throughout my childhood, I developed a natural interest in baking. As my passion grew, in 2016, I completed a course in buttercream basics at our local Michael's store. I now have a small home bakery business to create custom cake and cookie edible art for friends, family and my community!
