<i>Upland White Goldenrod</i>	1		<p><i>Bloom Period:</i> July to September <i>Bloom Colour:</i> White <i>Plant Height:</i> 20-35 cm <i>Attracts:</i> Butterflies <i>Special Characteristics:</i> Drought Tolerant.</p>
<i>Hoary Vervain</i>	1		<p><i>Bloom Period:</i> July to August <i>Bloom Colour:</i> Purple <i>Plant Height:</i> 20-80 cm <i>Attracts:</i> Butterflies, Bees, and Hummingbirds <i>Special Characteristics:</i> Floral Nectars Attracts Pollinators, Seeds Attract Songbirds, Drought Tolerant, Hairy Stems and Leaves.</p>

Plant Name	# Of Plants in the Kit	Plant Photo	Plant Details
<i>Black Eyed Susan</i>	1		<p><i>Bloom Period:</i> June to Sept</p> <p><i>Bloom Colour:</i> Yellow with black center</p> <p><i>Plant Height:</i> 30-75 cm</p> <p><i>Attracts:</i> Butterflies and Bees</p> <p><i>Special Characteristics:</i> Prefers mesic to dry, various soils with low fertility.</p>
<i>Harebell</i>	1		<p><i>Bloom Period:</i> June to October</p> <p><i>Bloom Colour:</i> Dark Blue</p> <p><i>Plant Height:</i> 15-60 cm</p> <p><i>Attracts:</i> Bees</p> <p><i>Special Characteristics:</i> Floral Nectar Attracts Many Pollinators.</p>
<i>Wild Strawberry</i>	1		<p><i>Bloom Period:</i> April to June</p> <p><i>Bloom Colour:</i> White</p> <p><i>Plant Height:</i> 10-18 cm</p> <p><i>Attracts:</i> Butterflies and Bees</p> <p><i>Special Characteristics:</i> Small Sweet Red Berries, Floral Nectar and Pollen Attract Many Pollinators.</p>

Successful Planting Tips

1. Dig hole, add lots of water, let it drain.
2. Remove plant from container, if necessary, gently 'tickle the roots' to spread the roots of pot-bound plants.
3. Place in hole, press soil down around the plant.
4. Water regularly until well established.
